

Dong Qiu (Chinese:邱冬)

qiudong@zju.edu.cn

<https://dongqiu1226.github.io/>

Education

Southeast University	2017.09 – 2021.06
Chien-Shiung Wu College B.S. in Mathematics and Applied Mathematics	Nanjing, China
Zhejiang University	2021.09 – 2026.06
School of Mathematical Sciences Ph.D. Candidate in Computational Mathematics	Hangzhou, China
Advisor: Prof. Xiang Xu	

Work Experience

Zhejiang University, postdoc	2026.07 – Present
------------------------------	-------------------

Research Interests

- Inverse problems for nonlinear hyperbolic PDEs arising in ultrasound imaging
- Computational methods for X-ray transforms
- Stochastic inverse problems

Publications

Submitted Papers and Preprints:

- [Dong Qiu](#), Xiang Xu, Yeqiong Ye, Ting Zhou. Inverse boundary value problems of determining nonlinear coefficients for the JMGT equation. preprint, 2026, <https://arxiv.org/abs/2603.14194>
- [Dong Qiu](#), Xiang Xu, Yeqiong Ye, Ting Zhou. Gauge symmetry and uniqueness in inverse problems for the JMGT equation. preprint, 2026, <https://arxiv.org/abs/2604.28023>

Published Papers:

- [Dong Qiu](#), Xiang Xu, Yeqiong Ye, Ting Zhou. Uniqueness result for semi-linear wave equations with sources, *Inverse problems and Imaging*, 2026. <https://www.aims sciences.org/article/doi/10.3934/ipi.2026030>

Selected Presentations

- Invited talk: Inverse source problems for nonlinear wave equation, Seminar, Fudan University June 2025
- Invited talk: Inverse boundary value problems for the JMGT equation, The 15th National Conference on Inverse Problems, Imaging and Applications, Wenzhou May 2026

Honors and Awards

- Outstanding Graduate Student, Zhejiang University ×2

Teaching Assistant Experience

Teaching Assistant for Practical Optimization Algorithms	2022.03 – 2022.07
Teaching Assistant for Probability Theory and Mathematical Statistics	2022.09 – 2023.01
Teaching Assistant for Linear Algebra	2023.03 – 2023.07
